

THE FIRST ENVIRONMENTALLY CERTIFIED FLOORING COMPANY

Pergo Europe AB is the first flooring company to be awarded the Nordic Ecolabel, the Swan, which considers a product's impact on the environment throughout its life cycle and guarantees that it is a good environmental choice. All our floors are environmentally certified.

Declaration of Content on a class 33 (according to EN 13329) product

Component	Specification
Top layer	Paper, cured melamine and phenol resin
Middle layer	Wood chips, wood splinters, pulpwood
Bottom layer	Paper
Adhesive	UF-glue
Others components	Aluminium oxide

LCA

Already 1996 Pergo Europe AB made its first Life Cycle Analysis.

Carbon dioxide (CO₂) emission

Years (Total life time)	Production	Transport	Installation	Life in the house	End of life	Total	
10	1019	75,40	0,05	22,29	4,31	1122	g /m ² / year
20	510	37,70	0,03	22,29	2,15	572	g /m ² / year
25	408	30,16	0,02	22,29	1,72	462	g /m ² / year
50	204	15,08	0,01	22,29	0,86	242	g /m ² / year

Formaldehyde

The emission of formaldehyde from the flooring product are less than 0,05 mg/m³ (the limit for E 1 which is a German standard for wood-based boards is 0,13 mg/m³).
